**UGTA KICK-OFF MEETING RESPONSE**

Ref: Your letter, dtd 1/19/2007, same subject

Thank you for your feedback and input regarding the annual Underground Test Area (UGTA) Kick-Off meeting. UGTA presents this material every year and is always interested in improving the ways we deliver this information to the audience.

UGTA has reviewed the comments you provided. One thing the CAB may not understand is that all the material presented is considered draft and not for public dissemination. For this reason, the presentations and posters cannot be handed out to the audience. UGTA will consider a more informative approach of presenting the overall integration between the contractors and their specific work so the audience can better understand the complex structure of UGTA.

Thanks again for your participation and feedback to the UGTA Sub-Project.

Stephen A. Mellington  
Assistant Manager

for Environmental Management
